

New Zealand Photography Tours
presents a workshop

Worlds of Wonder
Creative Techniques
Close-ups and Macro Photography

Eva Polak

Saturday 13 November & Sunday 14 November, 2010

www.nzphotographytours.com

© Eva Polak

This fun two-day workshop is intended for those interested in fine art creative techniques in close-up and macro photography.

We will explore several methods of making creative, painterly, non-literal images in-camera: selective focus, camera movement, multiple-exposure, long exposures, reflections and more.

Flowers are perfect for close-up and macro interpretations. The colours, texture and visual rhythm present endless subject material for personal and artistic expression.

Emphasis will be placed upon developing your own artistic vision and shooting from the heart.

Key learning points:

- Understand colour
- Use available light to your advantage
- Create abstractions
- Release the inner artist
- Experience the joy of experimenting
- Refine your techniques

“Photography for me is not looking, it’s feeling. If you can’t feel what you’re looking at, then you’re never going to get others to feel anything when they look at your pictures.”

— Don McCullin

Eva Polak

Eva is a fine art photographer. She specializes in impressionist photography and is the author of two books, “At The Beach” and “Impressionist Photography Techniques”.

Her images are represented in private collections in Australia, New Zealand and Europe.

To learn more about Eva’s art visit her website www.evapolak.com
